Choose the service plan that fits your business

IT Essentials

Most affordable **remote IT business service**. It comes on top of our IT hardware purchase. Covers remote device management, monitoring, maintenance and support of your IT network 8am to 5pm Monday through Friday. This package is highly popular with retail, start-ups, businesses on very tight budgets and remote or satellite offices.

IT Premium

**MOST
POPULAR**

IT Premium Includes everything in the IT Essentials, plus **full site management, monitoring, maintenance, support and helpdesk** delivered 8am to 5pm Monday through Friday remotely & onsite as needed. This package is most popular with growing businesses looking for growth. This is our most popular plan.

IT Ultimate

IT Ultimate includes everything in IT Premium, plus **24x7 site management, monitoring, maintenance, support and emergency loaner equipment**. This package is most popular with businesses seeking full reliability and no interruption of operations. Also very popular with companies with offices in multiple time zones.
